*PlanetObserver printed maps are unique eye-catching communication products, perfect to promote your territory and address specific topics.*

- > Tailor-made floors produced on demand, at the required size.
- > Maps printed on the best adapted material (vinyl or PVC floor tiles), depending on your technical constraints and budget and the intended product length.
- > Printing of the satellite or aerial view of your choice, to be selected from our database.

## ■ Vinyl floorings

*For temporary exhibitions, trade shows and special events*

- The quality solution for a limited budget.
- Floor covering easy to fit in any location, with or without double-sided tape
- Resistant and perfect for multipurpose usage.

Vinyl floor map in Paris La Défense

## ■ PVC floor tiles

*For permanent exhibitions, showrooms, entrance halls, public spaces or touring events*

- The durable technical solution
- Interlocking tiles, easy to lay and remove
- Loose laying, no gluing required
- Easy to clean and resistant
- Eco-friendly product (100% recyclable)
